# About us...

*The new generation of wines has its roots in a rich and complex history, offering the authenticity sought by many consumers. At the same time, these are unique and surprising wines, especially the blends of local and international grape varieties, which express the Moldovan terroir and offers something fascinating to wine amateurs in search of new tastes and styles.*

*Moldova has the highest density of vineyards in the world and can offer a variety of wines to meet just about every taste. It grows both international and indigenous local varieties. But perhaps the most unique and exciting are the blends where Moldovan winemakers can express their individuality and the Moldovan landscape, all with a local twist.*

*“Heritage Fine Wine” today is the very real result of this country reinventing its approach to wine - focusing on quality, consistency and ‘enjoyment-in-a-glass’ as its priorities.*
